

NOMAD, THE ART AND LIFE OF DOMINIQUE MOODY

Print Design, Graphic Design

The Challenge

To create a unique artist catalog for Dominique Moody, a visionary artist who “transforms trash into treasure.”

The Solution

A large book that incorporates found objects and textures to piece together Dominique’s inspiring story.

The Team

Designer: Khari Scott

Artist / Author: Dominique Moody

Feedback

“I was seeking a young person with a combination of digital skills, experience in the graphic arts as well as an attention to details, a special requirement to give me additional assistance as a legally blind individual. Khari Scott met all of these criteria and more.

What struck me the most was his mature sense of focus and work ethic, his social etiquette and his understanding of my vision of the book... His ideas when problem solving were innovative and creative, even when we were under the pressures of time limits... working with this young man was amazing.”

Dominique Moody

Visual Artist & Educator

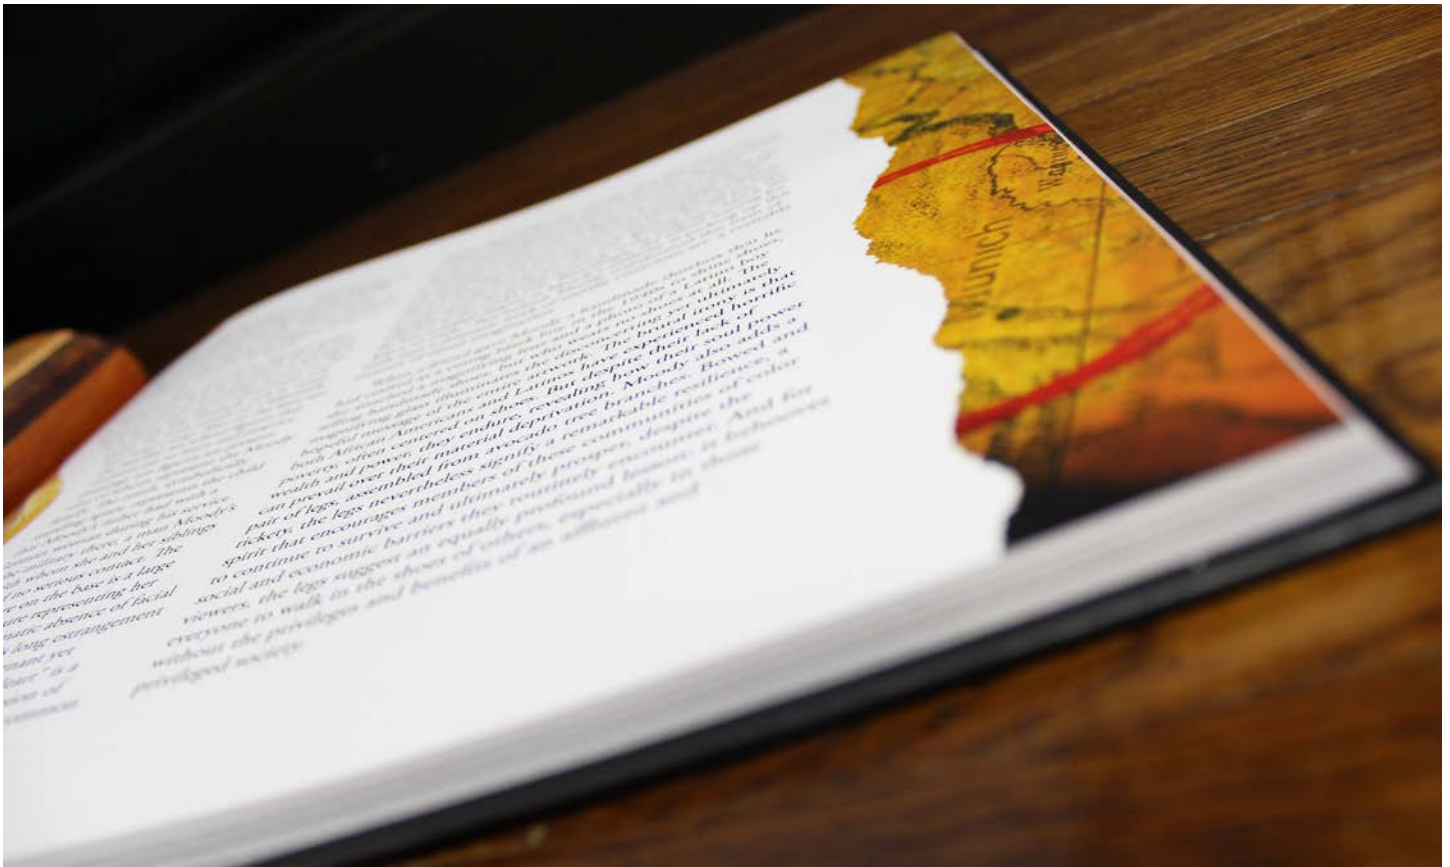

Every detail of the book, from text to texture, was carefully designed to manifest Dominique's artistic vision.

Large full page spreads provide an ideal canvas for Dominique's artwork.

Like Dominique's artwork, the book is full of rich details that add depth and meaning to the story.

Aiye Omode - Earth Child

As I dreamt of the
undertaken of Aiye Omode
from an eggshell globe.
In the dream, I saw a round
egg cracked open to reveal
the birth of an earth child
whose body was the color of
the risedent sheen color of
an oil or the feathers found
black-bird and crows. A crown of
palm-leaf nodes of stems and seeds
from the female sago palm adorns
the head of this figure.

... was a pattern of
... the interior
... the exterior is the
... of broken ostrich
... Combining these
... elements, along with the
... materials, the object
... surreal assemblage rich
... metaphors. The
... female earth child often
... the possibilities of new life.
... this enchanted being illustrates
... of human transformation and
... consciousness.
