

THE NU FUND

Interactive Presentation and Video

The Challenge

Every year the NU Fund helps hundreds of Nonprofits save millions of dollars. Their team needed a compelling presentation to explain the work they do and reach new clients.

The Solution

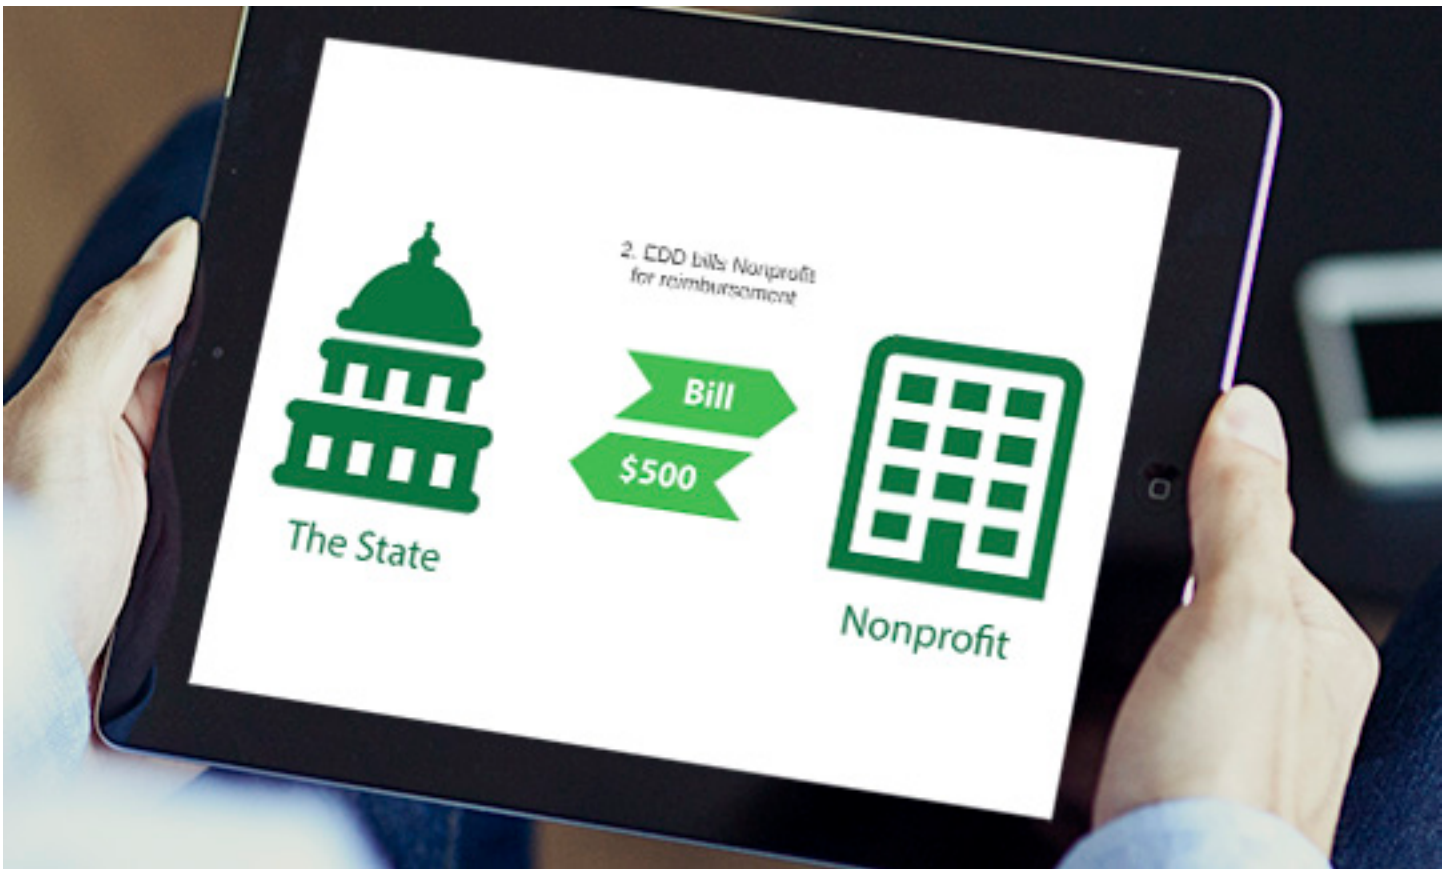

An interactive Prezi and video, which visually illustrates the message and services provided by the NU Fund, delivering an engaging presentation that simplifies complex processes into simple images.

Feedback

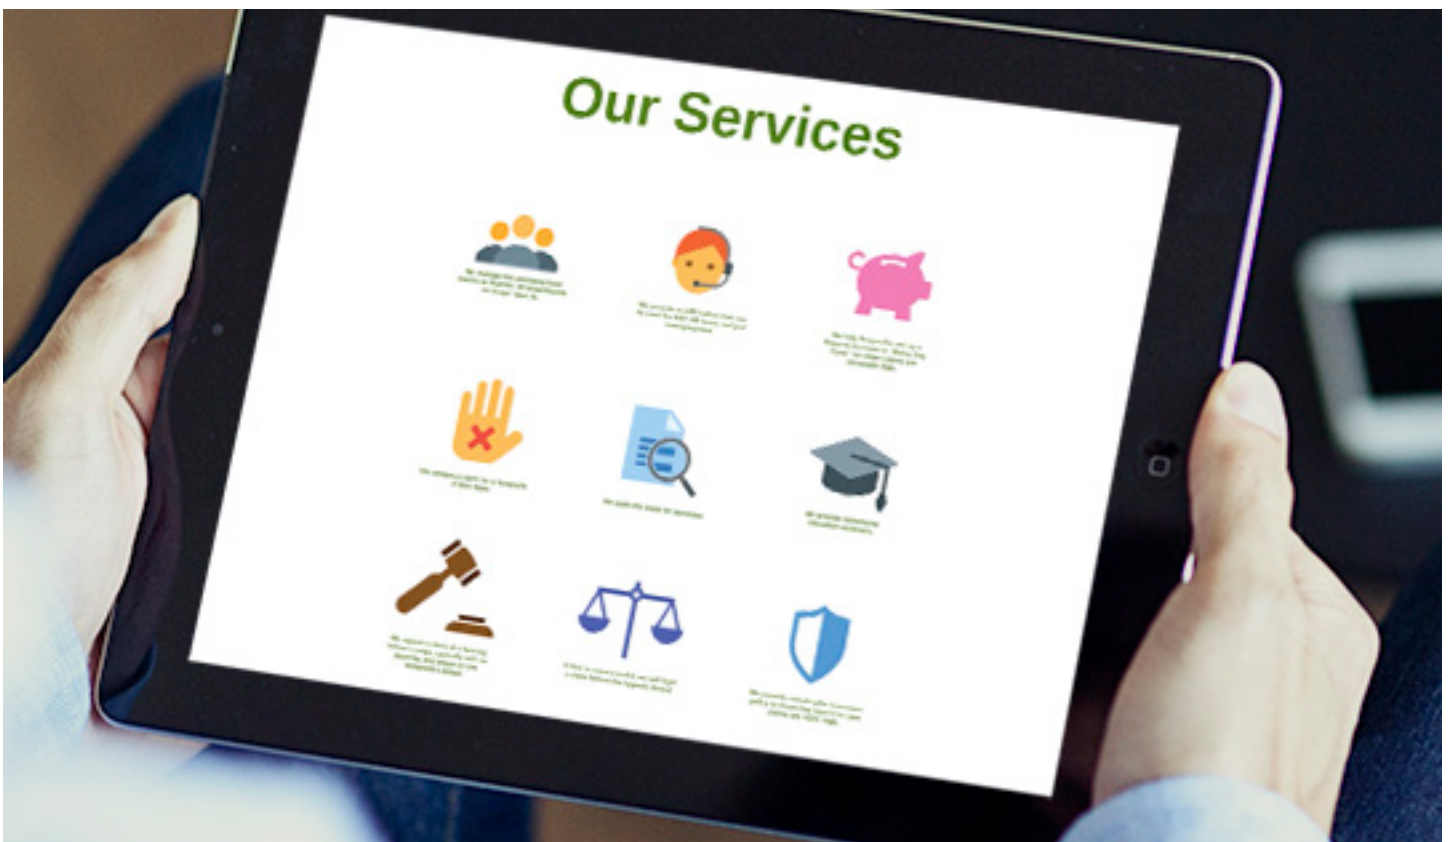

"I have had the distinct pleasure of working with Mr. Khari Scott on a number of projects, and fully endorse his work ethic, skills, and natural ability. Khari's creativity has allowed our company to expand its marketing presence, and his visions have become our standard. Frankly, it is rare that I work with someone so talented and reliable."

Woody Clark

Founder, The NU Fund

Icons and motion graphics help illustrate and present complex processes clearly and simply.
